Highlights of SwiftProtector

Competitive product features and a swift online application experience

SwiftProtector combines a simplified buying process with a strong lapse protection benefit, a cost-effective, flexible policy design, competitive target premiums, and an array of index strategy options. It's available exclusively online for ages 20–60 with death benefit amounts up to \$3 million.

Fully integrated illustrations

Illustration ID's from Symetra Life Illustrator, Winflex and Ensignt are fully integrated into the SwiftProtector application process. This enables client and coverage data to auto-populate, reducing manual entry and eliminating the need to separately upload or email an illustration. Plus, you can choose to review the illustration prior to an offer being made. Our post-approval compare enables you to review the illustration inputs compared to how the policy was "approved as" and provides the option to add a new illustration or send to the client. While including an illustration ID is optional with SwiftProtector, a signed illustration is required for policy issue.

User-friendly and secure client interview

After you complete the drop ticket, a secure link is emailed to your client to complete their financial, lifestyle and medical history at a time and place convenient for them.
